Formula for calculating heating surface.

The heating surface for these purposes may be defined generally as the total surface of all plates and tubes exposed to heat on one side and in contact with water on the other, measured on the water side. For Lancashire and Cornish boilers the total heating surface shall include the wetted surface of the furnaces between the end plates and of cross tubes, where fitted, and the part of the external shell below the side flue covers. In estimating the areas, furnaces may be considered as plain cylinders, the area of their wetted surface is to be taken as their mean external circumference × the length of the boiler between end

plates. For the shell the width of that part of the circumference below the flue covers is to be taken as = 2D, and this width × the length between end plates is to be taken as the area of shell heating surface. The part of the surface of the back end plate exposed to heat is to be neglected.

The furmula for the total heating surface of a Lancashire boiler having plain furnaces without cross-tubes is therefore H. S. in square feet=2L (3·14d+D). L is the length of the boiler between end plates, D is the mean external diameter of the largest belt of shell, d is the diameter of furnace flue all sizes in feet.

For steam and water drums of water tube boilers the heating surface of the drum may be taken as half the external mean circumference into the clear length of drum between the outer brick walls or centres of cross boxes as the case may be. The surface of the tubes may be taken as the external furnace of the inclined tubes between tube plate and headers. The heating surface of the headers is to be neglected.

For Marine type boilers the heating surface shall include the wetted surface of the furnaces between the tube plates (considered in the same way as for Lancashire boilers), the wetted surface of the combustion chambers (less the area of the tube holes) and the wetted surface of the tubes between tube plates. The parts of the front tube plate exposed to heat are to be neglected.

For Locomotive type boilers the heating surface shall include the wetted surface of the fire-box above the foundation ring (less the area of the tubes and the fire-hole and ring) and the wetted surface of the tubes between tube plates. The smoke box tube plate is to be neglected.

For vertical boilers of ordinary type the heating surface shall include the wetted surface of the fire-box above the foundation ring (less the area of fire-hole and ring and tube holes, if any) and the wetted surface of any cross or other tubes and uptake below the lowest water level shown in the gauge-glass. For any other heating surface not provided for in the foregoing instructions the same general procedure shall be observed. No deduction should be made for stays, etc., in calculating the heating surface.

4. *Delete* rule XXII of the said rules.

5. In column 2 of Division II of Form No. 1 for the word "horse-power" *substitute* the words "Heating Surface."

6. In Division IV of Form No. 1 for the existing scale of fees *substitute* the following, namely :—

										Rs.
Boilers up 100 square feet heating surface								...	...	20
„	from 101 square feet H. S. to 300 square feet H. S.								...	25
„	„	301	„	„	„	500	„	„	„	... 30
„	„	501	„	„	„	700	„	„	„	... 35
„	„	701	„	„	„	900	„	„	„	... 40
„	„	901	„	„	„	1,100	„	„	„	... 45
„	above	1,100	„	„	...		...		...	... 50

(As per rule XXI.)

7. In column 5 of Form No. 2 for the word "horse-power" *substitute* the words "Heating Surface."

Payment of fee and penalty for offering gratuity.

RESOLUTION ON THE ANNUAL IRRIGATION REVENUE REPORT FOR THE YEAR 1921-22.

GOVERNMENT OF BENGAL.

IRRIGATION DEPARTMENT.

CALCUTTA, THE 27TH FEBRUARY 1923.

RESOLUTION—No. 2*I*.

READ—

The Annual Irrigation Revenue Report for the year 1921-22.

The irrigation and navigation works in operation in Bengal for which both capital and revenue accounts are kept are (1) the Midnapore Canal, (2) the Hijili Tidal Canal, (3) the Calcutta and Eastern Canals and (4) the Madaripur Bil Route. Of these, the Midnapore Canal is both for irrigation and navigation and the other three are for navigation only. All these works are now unproductive.

A capital account has also been opened and was maintained during the year under review for the Grand Trunk Canal, the construction of which was sanctioned by the Secretary of State at an estimated cost of Rs. 3,09,00,000,

although all works in connection with the project except those for which Government have committed themselves have been held in abeyance pending further examination on its productive aspect. For the Orissa Coast Canal, the Nadia Rivers and the Gaighatta and Baxi Khal a revenue account was maintained during the year, although this will be discontinued with effect from the financial year 1922-23. The other works of the department, viz., those in connection with the Eden Canal, the river training works and the anti-malarial works were treated as works for which neither capital nor revenue accounts are kept.

2. The financial results of the year and the capital expenditure to date are exhibited in the following statement :—

	Capital expenditure, direct and indirect.		Receipts of the year less refunds.	Expenditure of the year less refunds.	Net revenue of the year.	Net revenue of the previous year.

3. The capital expenditure on the **Grand Trunk Canal** (direct and indirect) during the year was Rs. 35,73,868 and the total capital outlay to the end of the year was Rs. 54,22,997. The expenditure during the year was principally incurred to meet payments on account of the dredger "Ronaldshay" and also partly to meet establishment charges and the cost of acquisition of land.

4. No capital expenditure was incurred during the year on the **Midnapore Canal** which consists of two weirs at Midnapore and Panchkura, 69·75 miles of main and branch canal used both for irrigation and navigation, and 254·5 miles of distributaries. The area irrigated during the year was 83,012 acres as compared with 91,066 acres in 1920-21 and an average of 87,169 for the triennium ending March 1921. The receipts and working expenses (direct and indirect) were Rs. 2,32,836 and Rs. 1,91,646, the result being a net revenue of Rs. 41,190 against a net deficit of Rs. 4,576 in the preceding year. The large difference is due mainly to far less expenditure having been incurred in the year under review on maintenance than in the

preceding year. The water rates in this canal have since been raised generally. Proposals for increasing the navigation tolls on this and other canals are also under the consideration of Government.

5. No capital expenditure was incurred during the year on the **Hijili Tidal Canal** which with the Terapakia pass khal, Palaboni khal and the khal leading to the Gewankhali lock entrance constitutes a navigation canal of 49¾ miles length. The receipts and working expenses of this canal during the year were Rs. 67.507 and Rs. 27,418, respectively, the result being a net revenue of Rs. 40,089 against a net revenue of Rs. 35,045 in the previous year. The better result is attributable to the absence of any flood and consequent depression in trade which was present in the previous year.

6. **The Calcutta and Eastern Canals** form a series of natural and artificial navigation channels extending for 1,184 miles for the purpose of maintaining communication between Calcutta and Eastern Bengal. The receipts during the year from navigation tolls on these canals were Rs. 3,87,457 as compared with Rs. 3,65,011 in the preceding year. A small capital outlay was incurred on the canal during the year and this was chiefly on excavating a channel between the Kakrabonia khal and Channel Creek to the south of the Doagra Channel in the Sundarbans steamer route. This channel will serve as an alternative to the Doagra Channel which is rapidly dying.

7. The capital expenditure during the year on the **Madaripur Bil Route** connecting the Madhumati and Kumar rivers in the Faridpur district, was incurred chiefly on the work of widening and deepening the main channel of the route. The receipts from navigation tolls amounted to Rs. 2,82,786 against Rs. 3,14,963 in the previous year The heavy fall is chiefly due to depression in trade on account of heavy import duties and high prices of materials, failure of the rice crop, less production of jute owing to low price and also partly to the coal crisis.

3. **The Orissa Coast Canal** in conjunction with the Hijili Tidal Canal affords communication between Bengal and Orissa, and before the opening of the Bengal Nagpur Railway, it was the only inland route by which food could be conveyed into Orissa in time of famine. This canal is for navigation only and lies partly in this Presidency and partly in the province of Bihar and Orissa. The receipts and working expenses (direct and indirect) for the portion within Bengal were respectively Rs. 14,786 and Rs. 10,280 against Rs. 13,236 and Rs. 7,691 in the previous year.

9 The work in the **Nadia Rivers** consists in the training of the river channels by bandals with the two-fold object of maintaining by the scouring of shoals a sufficient depth of water for boat traffic and at the same time improving the sanitation of the country. The Hooghly river also depends on these rivers for its headwaters. The report of the Committee appointed in 1917 to advise Government on the steps to be taken to carry out systematic observations of the changes in the Nadia Rivers and also, if possible to improve their condition as navigable channels and as feeders for the Lower Hooghly is still under the consideration of Government. The only outcome so far has been the constitution of a permanent board whose duty it will be to examine all important projects which are likely to restrict the free flow of flood water. The receipts and working expenses (direct) of the system during the year under review were Rs. 13,072 and Rs. 78,786, respectively.

10. **The Gaighatta and Buxi Khal** is a short channel connecting the rivers Damodar and Rupnarain. The collection of tolls on boat traffic in this khal was leased for three years from 15th May 1919 at a rental of Rs. 4,700 per annum. The receipts and working expenses (direct) were respectively Rs. 1,900 and Rs. 2,189.

11. **The Eden Canal** was originally constructed for sanitary purposes, but it is now used to some extent for irrigation. The supply of water in the canal has become insufficient and uncertain in recent years owing to the precarious nature of supply in the Damodar river. It is expected that this state of things will improve on the construction of the Damodar canal project, an estimate amounting to Rs. 68 lakhs (direct charges) for which has been sanctioned by the Government of India and the Secretary of State. The

revised estimated cost of the project has risen up to 90 lakhs, and as it is impossible that under the present state of finance, Government should embark upon this prohibitive expenditure, an enquiry is being made if the people to be benefited by the project are agreeable to contribute to the same should it be thought desirable to carry it out under the Agricultural and Sanitary Improvement Act, 1920.

12. The work in connection with the **Improvement of the Bidyadhari river** by creating a spill reservoir for the flood-tide was in progress during the year. The operations have proved satisfactory, but for further improvement, dredging work has been commenced in the river to which the Corporation of Calcutta and the Government of Bengal will both contribute.

13. Of the works in connection with the projects for mitigating the effects of the Damodar floods, some were completed during the year and others were in progress.

14. (*i*) **Training Works** were, as usual, carried out in the Dhaleswari and Buriganga rivers to facilitate navigation and improve the water-supply of the town of Dacca. The training works were highly satisfactory in the Dhaleswari river, but it was not so in the Buriganga, as a considerable amount of discharge escaped through the cut at Jagannathpur.

(*ii*) Training works were also carried out during the year on the river Ganges between Rajmahal and Goalundo through the agency of the India General Navigation and Railway Company, Limited.

(*iii*) To improve navigation as well as the sanitary conditions and water-supply of the town of Rampur Boalia, training works were carried out on the channel of the river Ganges.

(*iv*) At the mouth of the Bhagirathi river at its offtake from the Ganges no dredging was done during the year for want of funds as well as of a suitable dredger. Attempts were made to improve the entrance by means of bandalling only.

15. **General.**—As stated in the last year's resolution, the important problems with which the Irrigation Department in Bengal have to deal are connected more with the improvement of navigation and sanitary conditions and control of flood water in the province than with irrigation properly so called. As regards the improvement of navigation, the Government have long been impressed by the urgent necessity of developing the waterways and the Grand Trunk Canal is the outcome of laborious investigations carried out for the purpose for several years. The project was sanctioned by the Secretary of State, but a special officer has been deputed to work out the details to show its productive aspect to the Legislative Council before actual construction is taken up. It is expected that if the project is carried out, navigation in the Province will be very greatly improved.

The proposals for river improvements at Dacca were under consideration during the year under review. Of the anti-malarial schemes required for the improvement of the sanitary and drainage condition of the Province, some were completed during the year and others were under construction or investigation. The flood embankments and the sluices in them were efficiently maintained during the year.

16. The Irrigation Department during the year under review was successively in charge of Rai Amar Nath Das Bahadur, Mr. C. Addams-Williams, C.I.E., and Mr. G. T. Huntingford. The thanks of Government are due to these officers for the efficient conduct of the affairs of the Government during the year. The good work of other officers has also been noted by Government.

Order.—Ordered that a copy of the resolution be published in the *Calcutta Gazette* and a copy thereof and of its accompaniments be submitted to the Government of India in the Public Works Department and circulated to other Governments and to all Departments and officers of this Government as usual.

By order of the Governor in Council,

RESOLUTION ON THE SURVEY AND SETTLEMENT REPORTS FOR THE YEAR ENDING THE 30TH SEPTEMBER 1922.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT,

Land Revenue.

CALCUTTA, THE 5TH MARCH 1923.

RESOLUTION—No. 2332L.R.

READ—

The Survey and Settlement Reports for the year ending the 30th September 1922.

During the year under review the decision to reduce the survey programme from a four-party to a two-party programme was carried into effect. Traverse survey was finished in the districts of Bogra and Pabna by one party and continued in that of Khulna by the second party. The main programme carried out consisted of 1,864 square miles against an estimate of 1,801 square miles. It was fully completed and no revision work remained.

The Survey Department also carried on some miscellaneous surveys during the year. The survey of the limits of the jurisdiction of the Calcutta High Court which was undertaken during the preceding year was continued during the year under review.

2. The report of the Director of Land Records shows that the settlement staff made good progress in the face of great discouragement. In addition to being afflicted by epidemics of influenza and fever, which of late have been seriously interfering with the progress of settlement work, the settlement staff were, during the year under review, harassed by the spread of non-co-operation to the mufassal and an outbreak of lawlessness which synchronised with the most critical months of the short field season. The effects of the outbreak were most seriously felt in the Pabna-Bogra and Birbhum settlements. In the district of Bogra every householder was forbidden on pain of boycott to give any shelter or food to an amin or to sell anything to a settlement employee even in the markets; Mr. Macpherson, I.C.S., the charge officer, was attacked by a big crowd armed with sticks and oars and but for the intervention of some friendly villagers might have been seriously hurt. In the district of Birbhum the amins were driven out of the most important villages, and in some cases the houses, in which they had taken shelter, were burnt, and in others they were escorted to the railway station and given their fares home; the Settlement Officer and his staff were publicly insulted and abused and on more than one occassion narrowly escaped assault. Non-coperation also interfered with recovery in Jessore and was partly responsible for strikes in the Bankura and Nadia presses. The settlement staff, however, faced the unexpected situation with exemplary courage and patience; and it is significant to note that the Director of Land Records reports that in the district of Bogra the raiyats eventually realised that they had been misled and were soon taking as much interest in the work as the raiyats of Bakarganj or Mymensingh before the war. Moreover, but for the fact that the number of plots and interests to the square mile have largely exceeded the standard in all the districts taken up in recent years, the programmes

would have been practically up-to-date in all settlements in spite of the curtailment of the budgets and the consequent sudden changes in the programme.

3. Major settlement operations in the districts of Mymensingh, Midnapore, Tippera, Noakhali and Rajshahi, which were in their closing stages, were practically completed ; they were in full swing in the districts of Pabna, Bogra, Bankura, Birbhum, Nadia, Jessore and Khulna. The new districts taken up for cadastral survey during the year were Khulna in place of Jessore and Birbhum in place of Burdwan. Owing to the financial difficulties of the province, only a limited programme was undertaken in Birbhum and the work stopped ; the work was confined to the cadastral survey and khanapuri of 628 square miles out of the area traversed in 1920-21. Altogether 2,500 square miles were cadastrally surveyed against 2,875 square miles in the previous year and 2,477 square miles in 1919-20. Attestation was done in 2,638 square miles and final publication was completed in 2,387 square miles as against 2,477 and 2,140 square miles, respectively, in the previous year. By the end of the year, records-of-rights had been completed in 58·4 per cent. of the area in this province to which the Bengal Tenancy Act applies. The decision to reduce the programme from a four-party to a two-party programme also applies to the settlement proceedings under the Director of Land Records in respect of cadastral parties. Thus during the year under review there were two full cadastral parties at work in Pabna-Bogra and a reduced party in Birbhum. The complete reduction to a two party programme has been effected from the year 1922-23, but the settlements of districts taken up in accordance with the larger programme are still under completion.

4. Important minor settlement operations for the revision of land revenue were also carried on in the districts of the 24-Parganas, Dacca, Faridpur, Bakarganj, Tippera, Darjeeling and Jalpaiguri. Altogether, 402·79 square miles were cadastrally surveyed and records of 15·25 square miles were finally published. The revenue was increased from Rs. 77,362 to Rs. 1,08,039.

5. In Nadia, complicated questions connected with *utbandi* tenancies cropped up in the third block as in the first two blocks. In some parts of this block the increased demand for land has led the tenants to take conversion of the *utbandi* lands into ordinary raiyati holdings on the landlords' terms. But, owing to the rates at which conversion was made being too high, some of the poorer lands have been surrendered, and settlement on the *utbandi* system is again going on. A Bill which has been framed on the recommendations of the Committee appointed to consider the amendment of the Bengal Tenancy Act about the conversion of *utbandi* tenancies into ordinary raiyati holdings has recently been circulated for opinion.

6. Resumption proceedings have formed a heavy incubus on the settlement operations in all the districts of Eastern Bengal, but all the main rivers of the province have now been covered and except perhaps in Khulna the burden on future settlements is expected to be comparatively light.

Up to the end of the year under review, proceedings have been drawn up for 1,827 new estates ; and the proceedings for 1,550 estates with a land revenue of over Rs. 2,26,000 have been confirmed by the Board of Revenue. The Director of Land Records makes the interesting statement that if the value to Government of the new estates thus formed is capitalised at 20 times the revenue the proceedings have secured to the State property worth about 58 lakhs of rupees at a cost hardly exceeding 5 per cent. of this amount.

7. Mr. C. A. O'Donel officiated for Lieutenant-Colonel F. C. Hirst in the Bengal Survey Department up to the 19th November 1921, after which Lieutenant-Colonel Hirst held charge of it up to the end of the year. Mr. F. A. Sachse, I.C.S., was in charge of the Department of Land Records throughout the year. The Governor in Council has much pleasure in acknowledging the services rendered by these officers and also by the

Settlement Officers Messrs. F. W. Robertson, J. M. Pringle, H. C. V. Philpot and Khan Bahadur Muhammad Abdul Momen. The good work done by these officers and also by those mentioned in the concluding paragraphs of the Survey and Settlement Reports will be noted.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

M. C. McALPIN,
Secretary to the Government of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Spring Oilseed Crops of Bengal, 1922-23.

(NOTE.—On an average of the five years ending 1920-21, the area under linseed in Bengal has represented some 5·8 per cent. and that under rape and mustard 18·5 per cent. of the total areas under these crops in British India.)

Character of the season.—As reported in the first forecast, the weather was, except in parts of North Bengal, generally favourable for the preparatory operations. Since then, continued absence of rain and consequent insufficiency of soil-moisture have adversely affected the crops in many parts of the province. The rainfall in February was received too late to be of any material value.

Area sown.—Oilseeds are chiefly grown in the Rajshahi, Dacca and Presidency Divisions. In the other two Divisions the cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 904,600 acres this year as against 1,066,400 and 1,059,300 acres, respectively, in the corresponding and final forecasts of last year. The decrease in area as compared with last year is due to revision of estimates for Mymensingh.

Outturn.—From the District Officers' estimates, the provincial outturn of the different oilseed crops works out at 78 per cent. of the normal as against 74 and 73 per cent. respectively, in the corresponding and final forecasts of last year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Wheat Crop of Bengal, 1922-23.

(NOTE.—On an average of the five years ending 1920-21, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1920-21, averaged (*a*) 43·8 and (*a*) 15·0 per cent., respectively.)

Character of the season.—As reported in the first forecast, the weather conditions were generally favourable for the preparatory tillage and for the sowings of the crop, which began in the usual time. But the continued drought that prevailed later on his retarded the germination and growth of the crop and is likely to reduce the outturn considerably. The recent rains, though beneficial to the late sown crop, have generally come too late to retrieve the situation.

Area sown.—According to District Officers' estimates, the total area sown amounts to 124,800 acres this year as against 124,500 and 124,100 acres, respectively, in the corresponding and final forecasts of last year.

Outturn.—From the district estimates, the provincial outturn works out at 74 per cent. of the normal this year against 69 and 68 per cent. reported, respectively, in the corresponding and final forecasts of last year.

NOTIFICATION.

No. 24 Marine.—The 17th March 1923.—The following questionnaire framed by the Indian Mercantile Marine Committee, together with the instructions for the guidance of those who desire to forward their views to the Committee, is published for general information.

A. MARR,

Secretary to the Government of Bengal.

INDIAN MERCANTILE MARINE COMMITTEE.

Instructions to persons invited to give evidence before the Indian Mercantile Marine Committee.

The "terms of reference" to the Committee are stated in the attached memorandum (Appendix B). The following questions are designed to cover the whole field of the enquiry, so far as it can be outlined at this stage. It is not, therefore, expected that each witness should necessarily answer all the questions put. It is particularly requested, however, that categorical replies should be given to each question which a witness may find himself in a position to answer and that no attempt should be made to reply to the Questionnaire as a whole in the form of a general memorandum. If a witness wishes to give his views on any points relevant to the enquiry, which have not been included in the Questionnaire, it would be convenient that such points should be dealt with in a supplementary statement. Appendix C contains a brief account of the different forms of State aid or protection given in various countries for the development of a national mercantile marine which, it is hoped, will serve as a useful guide to witnesses as to the particular lines on which their views and suggestions are required. The special attention of shipbuilding and engineering firms is drawn to the separate list of questions on the subject of shipbuilding and engineering which forms Appendix A to the Questionnaire.

2. The Committee is inviting directly or through Local Governments various associations and individuals to forward in writing their replies to the Questionnaire. The Committee will also be glad to receive replies from any Associations or individuals not so invited, who may wish to represent their views. Copies of the Questionnaire can be obtained on application to the Secretary, Indian Mercantile Marine Committee, Royal Indian Marine Dockyard, Bombay, or to the Secretary in the Marine Department of the Government of Bombay, Bengal and Madras and the Secretary in the Commerce Department of the Government of Burma.

3. The early receipt of written replies to the questions will greatly facilitate the work of the Committee. After perusal of the replies the Committee will select the witnesses for oral examination. To give adequate time for this it is requested that replies may be despatched to the Secretary with the least possible delay.

J. H. GREEN,

Secretary, Indian Mercantile Marine Committee.

50. Do you advocate the establishment of a training ship or nautical college on shore?

Further training as apprentices to the sea.

51. Do you advocate that after undergoing their preliminary training, the boys should serve a period of apprenticeship in steamers of the Mercantile Marine or in a sea-going training ship?

52. If the former, do you consider that shipowners are likely to accept apprentices for training, and if not, do you know what their principal objections are to doing so? Can you suggest any measure to overcome such objections and to encourage shipowners to accept apprentices?

53. If the apprentices are required to pay a premium for their apprenticeship, should Government pay the whole, or any portion of it?

54. If you recommend the provision of a sea-going training ship for apprentices, do you consider that this should be supplied and maintained by Government, or are you of opinion that it could be maintained entirely or partially by premiums and by carrying freight or Government stores?

55. Do you consider that apprentices in a sea-going training ship should be given free food, and any uniform or clothing allowance during apprenticeship?

56. Have you any views as to the curriculum of study during the period of training as a cadet and as an apprentice?

57. Do you consider that any sort of Nautical Academy or Academies should be established for the purpose of enabling Indian Mercantile Marine Officers, who have completed their apprenticeship, to undertake special studies before appearing for their Board of Trade Certificate for Mates and Masters, on the lines that now obtain in the United Kingdom?

58. If so, how many academies do you consider are likely to be required for the purpose and in which ports should they be situated? Could they be made self-supporting by fees or should they be provided and maintained wholly or partially by Government?

Engineers for the Indian Mercantile Marine.

59. Do you consider that any considerable number of the youths of this country are likely to be desirous of following the sea in the capacity of Engineers in the Mercantile Marine?

60. If so, should Government take any active steps to provide for—

(*a*) their training,
(*b*) future employment, and
(*c*) facilities for further study when qualifying for Board of Trade Certificates in the various grades or would you leave these to private enterprise in India?

61. Will you please state your views in detail as to the nature of the facilities which should be supplied by Government?

62. Do you consider that the present Engineering and Shipbuilding firms in India can give sufficient practical training to apprentices to enable them to become efficient Marine Engineers?

63. Are there any schools, colleges or institutes in the ports of India where sufficient theoretical knowledge can be obtained by apprentices to enable them to become efficient Marine Engineers, and if so, are the numbers sufficient?

Recruitment of Indians as Executive Officers and Engineers in the Royal Indian Marine.

The Commissioned ranks of the Royal Indian Marine both in the Executive and Engineering branches are open to Indians provided they have the necessary qualifications. These qualifications are :—

Executive Officers.

Under the rules, as they stand at present, the limits of age for appointment to the junior executive rank of the Royal Indian Marine, *viz.*, Sub-Lieutenant are 17 and 22 years. A Board of Trade Certificate (Second Mate) is not obligatory, but in lieu thereof a candidate must produce evidence of four years' service at sea, or a course in a training ship with subsequent service at sea amounting to four years in all. Candidates must have had sea service outside the Indian Ocean. Preference is ordinarily given to candidates trained on His Majesty's School Ships "Conway" or "Worcester" or at the Pangbourne Nautical College. If a candidate is without a Board of Trade Certificate, he is appointed on probation as a midshipman for 18 months in the first instance, during which period he is required to qualify for promotion to the rank of sub-lieutenant. The candidates are selected by a Selection Board appointed by the Secretary of State for India.

The Government of India are now considering proposals for obtaining candidates for the Royal Indian Marine direct from the training ship in future, instead of from the Mercantile Marine Service, and for completing their training in India.

The "Worcester" is at present the only training establishment which is prepared to take youths from this country and that only to a limited extent. They would have to join at the age of fourteen

The Royal Indian Marine being a small service the average entry in each year is only about four.

64. Do you consider the present arrangement adequate or would you recommend some other scheme, such as the establishment of a training ship in India for the Royal Indian Marine or a combined training ship for the Royal Indian Marine and proposed Indian Mercantile Marine? Please state your views.

The qualifications for these appointments are five years' service as an apprentice in a recognised Engineering firm or Government Dockyard.

Engineer Officers.

At present there are no Engineering firms or Government Dockyards which can give the necessary training in Marine Engineering as no construction work of sufficient size is undertaken.

It will be necessary, therefore, until a shipbuilding industry is instituted in India or the Royal Indian Marine Dockyard is largely developed, that candidates for Commissions in the Engineering branch of the Royal Indian Marine must be trained in Great Britain.

65. Under these circumstances, do you consider that the Government should give any facilities to enable suitable candidates to serve their apprenticeship?

General.

It has always been an accepted principle that so far as Maritime Services are concerned, the course of the post should follow as far as possible the course of trade. Consequently to secure the maximum economy in carrying mails, steamer services already in existence have been utilised for the purpose. Subsidies are fixed by negotiation or tender based on the regularity and speed of the services and the number of miles combined with the speed has been the determining factor in fixing the rate.

Postal Subventions.

66. Do you accept the above or have you any other views as to how these mail contracts should be arranged?

67. What other conditions, if any, do you consider it necessary or advisable to introduce in mail contracts in the future and with what object?

68. What considerations, if any, do you wish to urge in order to give all steamship companies in India an equal chance of competing for mail contracts?

69. Do you advocate any methods of indirect aid to promote the establishment of an Indian Mercantile Marine? If so, what are they?

Indirect Aid.

70. If you have advocated direct or indirect State Aid or assistance, what method or methods can you suggest for the purpose of raising the funds required? Will you give figures in support of your proposals, including the total sum involved?

Finance.

For the purpose of questions Nos. 1 to 35 "Vessels" should be deemed to mean "self propelled vessels" unless where otherwise expressly stated.

"Actual horse power" should be deemed to mean "indicated horse power" except in the case of turbine engines. In the latter case it should be "shaft horse power" *plus* 10 per cent.

The words "bounty" and "subsidy" have been used in the questionaire with a strict regard to the literal meaning of these terms. Thus "bounty" should be understood to mean a free gift of money by the State for the encouragement of the shipping or shipbuilding industry, and "subsidy" a payment made by Government for the performance of a specific service such as the conveyance of mails.

APPENDIX A.

Short title. 1. (*1*) This Act may be called the Calcutta Rent (Amendment) Act, 1923.

Ben. Act III of 1920.

2. In sub-section (*4*) of section 1 of the Calcutta Rent Act, 1920, for the words "for a period of three years from the date of the commencement of the Act" the words and figures "until the end of March, 1924" shall be substituted.

Amendment of section 1 of Ben. Act III of 1920.

STATEMENT OF OBJECTS AND REASONS.

Inquiry has shown that the supply of houses in Calcutta is still short of the demand and, after careful consideration, it is considered desirable to extend the present Calcutta Rent Act, 1920, until the end of next cold weather.

This Act is admittedly imperfect, but, on the whole, it has served its purpose, and as the proposed extension will be for a short period, it is not considered advisable to undertake a complete revision of the Act.

Rent control can only be justified as an emergent measure, and in introducing the Bill the Government desire to place on record their definite opinion that at the end of March, 1924 such control should finally cease.

[*Cf.* Act IX of 1910, s. 18(3) and (4).]

(*2*) When disposing of an application under sub-section (*1*), the Collector shall, in the case of any tree in existence before the construction of the aerial ropeway, award to the person interested in the tree such compensation, if any, as he thinks reasonable, and the Collector may recover the same from the promoter in the same manner as an arrear of land revenue.

Power to close and re-open aerial ropeway.

21. (*1*) If, after inspecting any aerial ropeway opened to public traffic, an Inspector is of opinion that the ropeway or any specified part thereof cannot be used without danger to the public, or is no longer in a fit state for the carriage of any specified class of traffic, he shall state that opinion, together with the grounds therefor, to the Local Government; [*Cf.* Act IX of 1890, ss. 23 and 24.]

and the Local Government may thereupon order that, for reasons to be set forth in the order, the aerial ropeway, or the part thereof so specified, be closed to all traffic or to any specified class of traffic:

Provided that, in any case of extreme urgency, the Inspector may order the suspension of the working of the ropeway or any part thereof which he considers necessary, pending the final orders of the Local Government on the case.

(*2*) When, under sub-section (*1*), an aerial ropeway or any part thereof has been closed to any traffic, it shall not be re-opened to such traffic until it has been inspected, and its re-opening sanctioned, in accordance with the provisions of this Act.

Discontinuance of Aerial Ropeways for Public Traffic.

for three months, discontinued the working of the ropeway or of any part thereof, without a reason sufficient, in the opinion of the Local Government, to warrant such discontinuance, the Local Government, if they think fit, may declare that the powers of the promoter in respect of such aerial ropeway or part thereof shall be at an end; and thereupon the said powers shall cease and determine.

Power of removal of aerial ropeway on cessation of promoter's powers

23. (*1*) When a declaration has been made under section 22, in respect of any aerial ropeway or of any part thereof, an officer appointed in that behalf by the Local Government may, at any time after the expiration of two months from the date determined as aforesaid, remove such aerial ropeway or part thereof, as the case may be; [*cf.* Ben. Act III of 1883, s 39.]

and the promoter shall pay to the officer so appointed such costs of removal as shall be certified by that officer to have been incurred by him.

(*2*) If the promoter fails to pay the amount of costs so certified within one month after the delivery to him of the certificate or of a copy thereof, such officer may, without any previous notice to the promoter and without prejudice to any other remedy which he may have for the recovery of the said amount, sell and dispose of the materials of the aerial ropeway or part thereof so removed;

Provided that the value of such lands, buildings, works, materials, plant and apparatus shall be deemed to be their fair market value at the time of purchase,

(*Chapter II.—Purchase of Aerial Ropeways for Public Traffic.—Clause 25.*)

due regard being had to the nature and condition for the time being of such lands, buildings, works, materials, plant and apparatus, and to the state of repair thereof, and to the circumstance that they are in such a position as to be ready for immediate working, and to the suitability of the same for the purposes of the undertaking :

Provided also that there shall be added to such value, as aforesaid, such percentage, if any, not exceeding twenty *per cent.* of that value, as may be specified in the order passed under section 7, on account of compulsory purchase.

(*2*) Where a purchase has been effected under sub-section (*1*)—

(*a*) the undertaking shall vest in the purchasers free from any debts, mortgages or similar obligations of the promoter or attaching to the undertaking :

Provided that any such debts, mortgages or similar obligations shall attach to the purchase-money in substitution for the undertaking; and

(*b*) save as aforesaid, the order published under section 7 shall remain in full force, and the purchaser shall be deemed to be the promoter :

Provided that where the Local Government elects to purchase, the order under section 7 shall, after purchase, in so far as the Local Government is concerned, cease to have any further operation.

(*3*) Not less than two years' notice in writing of any election to purchase under this section shall be served upon the promoter by the Local Government or the local authority, as the case may be.

(*4*) Notwithstanding anything hereinbefore contained, a local authority may, with the previous sanction of the Local Government, waive its option to purchase, and enter into an agreement with the promoter for the working by him of the undertaking until the expiration of the next subsequent period referred to in sub-section (*1*) upon such terms and conditions as may be stated in the agreement.

Power to promoter to sell when option to purchase not exercised and order revoked by consent.

25. Where, on the expiration of any of the periods referred to in section 24, neither the Local Government nor a local authority purchases the undertaking, and the order published under section 7 is, on the application or with the consent of the promoter, revoked, the promoter shall have the option of disposing of all lands, buildings, works, materials, plant and apparatus belonging to the undertaking in such manner as he may think fit. [*cf.* Act IX of 1910, s. 8.]

26. (*1*) If, at any time after the opening of an aerial ropeway for public traffic, it appears to the Local Government that the promoter is insolvent or is unable to maintain the ropeway, or to work the same with advantage to the public, or at all, the Local Government may declare that the powers of the promoter, in respect of such aerial ropeway, shall, at the expiration of six months from the date of such declaration, be at an end; and thereupon the said powers shall, at the expiration of that period, cease and determine. [*Cf.* Ben. Act III of 1883, s. 40.]

(*2*) At any time after the expiration of the said six months, an officer appointed by the Local Government in that behalf, may, notwithstanding anything contained in the Provincial Insolvency Act, 1920, remove the aerial ropeway in the same manner and subject to the same provisions as to the payment of costs and to the same remedy for the recovery thereof, in every respect, as in cases of removal under section 23. 21. For section 78 of the said Act the following shall be substituted, namely :—

"78. (1) In any case in which the Local Government have sanctioned the acquisition of land, in any area comprised in an improvement scheme, which is not required for the execution of the scheme, the owner of the land, or any person having an interest therein greater than a lease for years having seven years to run, may make an application to the Board, requesting that the acquisition of the land be abandoned.

Abandonment of acquisition in consideration of special payment.

(2) The Board shall admit every such application if it—

(a) reaches them before the time fixed by the Collector under section 9 of the Land Acquisition Act, 1894, for making claims in reference to the land, and I of 1894.

(b) is made by all persons who have interests in the land greater than a lease for years having seven years to run.

Explanation.—A mortgagee shall not be deemed to be a person having an interest in the land greater than a lease for years having seven years to run.

(3) If the Board decide to admit any such application, they shall forthwith inform the Collector, and the Collector shall thereupon stay proceedings for the acquisition of the land, and the Board shall proceed to fix a fee in consideration of which the acquisition of the land may be abandoned.

(4) Such fee shall be payable by the applicant on or before a date to be fixed by the Board in this behalf; and such date shall not be less than four years from the publication of the notification under section 6 of the Land Acquisition Act, 1894.

(5) Before the date so fixed, the person from whom the Board have arranged to accept the said fee, may, if the Board are satisfied that the security offered by him is sufficient, execute an agreement with the Board either—

(i) to leave the said fee outstanding as a charge on his interest in the land,

subject to the payment in perpetuity of interest at the rate of six per cent. per annum, the said interest to run from the date fixed under sub-section (*4*), or

(*ii*) to pay the said fee by such number of equal yearly or half-yearly instalments of principal or of principal and interest, as may be approved by the Board, interest in both cases being calculated at the rate of six per cent. per annum on the amount outstanding.

(*6*) When the said fee has been paid on or before the date fixed under sub-section (*4*), or when an agreement has been executed in pursuance of sub-section (*5*) in respect of any land, the proceedings for the acquisition of the land shall be deemed to be abandoned.

(*7*) If the said fee be not paid on or before the date fixed under sub-section (*4*), the Collector shall then proceed to acquire the land.

(*8*) If any sum payable under an agreement executed in pursuance of sub-section (*5*) be not paid on the date on which it is due, so much of the fee fixed by the Board under sub-section (*3*) as is still unpaid, shall be payable on that date, in addition to the said sum.

(*9*) At any time after an agreement has been executed in pursuance of clause (*i*) of sub-section (*5*), any person may pay off the balance outstanding of the charge created thereby, with interest due, if any, at the rate of six per cent. per annum, up to the date of such payment.

(*10*) When an agreement in respect of any land has been executed by any person in pursuance of sub-section (*5*), no suit with respect to such agreement shall be brought against the Board by any other person (except an heir, executor or administrator of the person first aforesaid) claiming to have an interest in the land."

(*b*) shall offer a prior right to take on lease or purchase such land to any person or his heirs, executors or administrators, who formerly had any interest in such land and who, in the opinion of the Board, has a superior claim to such land, or if it appears to the Board that no person has such a superior claim, the Board shall put up to auction the right to take on lease or purchase such land among all persons who, previous to its acquisition, had interests in any portion of such land greater than a lease for years having seven years to run :

Provided that the prior right referred to in this clause need not be offered or put up to auction, if the Board consider that to do so would be detrimental to the carrying out of the purposes of this Act :

Provided also that before putting up to auction the right to take a lease or purchase such land, the Board may fix a minimum reserve price, below which the said right shall not be sold."

Amendment of section 82.

25. For sub-section (*1*) of section 82 of the said Act the following shall be substituted, namely :—

Amendment of section 5 of the Schedule.

41. In section 5 of the Schedule to the said Act, for the words " upon payment of the cost of acquisition " in section 17A of the Land Acquisition Act, 1894, the words " upon taking possession of the land, forthwith " shall be substituted.

Amendment of section 13 of the Schedule.

42. In section 13 of the Schedule to the said Act, to sub-section (*f*) of section 48A of the Land Acquisition Act, 1894, the following shall be added, namely :—

" Provided that no compensation shall be payable if the proceedings of the Collector are stayed under section 78 of the Calcutta Improvement Act, 1911."

STATEMENT OF OBJECTS AND REASONS.

Proposals to amend the Calcutta Improvement Act, 1911 (Bengal Act V of 1911), were first raised in consequence of the judgment of Mukharji and Cuming, JJ. *in re* Calcutta Improvement Trust *versus* Chandra Kanta Ghosh. holding that the compulsory acquisition of surplus land for recoupment purposes, was not authorized by the Act. A contrary view was taken in a similar injunction suit brought against the Board to restrain it from the acquisition of surplus lands, by a Full Bench of the High Court, and the judgment of Mukharji and Cuming, JJ., was subsequently reversed by the Privy Council.

The amendment of section 42 of the Act might, therefore, appear to be no longer necessary. Other legal difficulties have, however, arisen in administering the Act. The legality of executing improvement schemes in the suburban area outside Municipal Calcutta, unless they are connected with or subserve schemes undertaken in Calcutta, has been questioned. It has again been doubted whether the Trust could provide open spaces as a principal item of improvement instead of merely as a subsidiary part of a general or street improvement scheme. There is reason to believe that the legal powers of the Board do not fall short of those, which the Legislature, as the Council debates indicate, intended to vest in that body, but it is obviously most desirable that any doubts which may still exist, should be definitely removed.

2. The draft Bill in the first place aims at placing the power of the Board to operate in the suburbs and environs of Calcutta beyond all doubt. It was originally intended that the Bill should make specific provision for the improvement of Howrah, but it has now been decided to create a special Trust for Howrah by a separate Bill.

3. Sections 36 *et seq.* have been re-drafted. It has been found that in actually working the Act, no hard-and-fast line can be drawn between a "general improvement scheme" and a "street scheme." The first scheme undertaken by the Trust was styled a "general improvement scheme"; all subsequent schemes have been designated "street schemes." In a city like Calcutta in which building sites are frequently irregular and ill-adapted for their purpose, the opening up of a main thoroughfare inevitably involves the relaying out of a considerable area in the vicinity of the new main artery, and the "street scheme" thus exhibits all the characteristics of a general improvement scheme. This distinction which, so far as Calcutta conditions are concerned, has proved artificial, has, therefore, been abandoned, and the drafting of the important sections of Chapter III has in consequence been simplified. The right of the Corporation to make an official representation is, as before, confined to the case of insanitary areas, whereas the Trust may frame an improvement scheme for any area. The purposes for which an improvement scheme may provide, correspond in the main with those already referred to in the present Act; the Bill, however, permits the provision of open spaces being made the main or principal item of an improvement scheme instead of being merely subsidiary thereto.

4. It is proposed that there should be two distinct stages, covering first, the preparation of preliminary plans and estimates for an improvement scheme, and secondly their final adoption. Preliminary plans and estimates will be submitted as at present to the Local Government, and on receiving their approval, will be forwarded to the Corporation, with detailed engineering plans and specifications for the approval of that body. It will be for the Corporation and the Board to discuss these questions of technical detail, and in the event of their agreement, the plans and estimates will stand finally approved. In the event of a difference of opinion between these two bodies, the orders of the Local Government will be obtained. At present, the General Committee considers the engineering plans and reports to the Corporation; it is considered desirable that in future the plans and estimates should go direct to the Corporation, which would naturally not consider them, until they had been first examined by the Works Committee. The General Committee will, moreover, cease to exist on the enactment of the

Calcutta Municipal Bill, 1921, which is likely to come into force before the present Bill. There has been some difference of opinion between the Corporation and the Board as to the exact liabilities or obligations, which section 65 of the Act imposes upon the Board. The section has been redrafted so as to provide for the Board supplying such lighting and water-supply adjuncts or apparatus, as the Corporation would themselves ordinarily provide in a street which they had constructed. Provision has also been made for a section of a street being made over to the Corporation under section 65 before the whole thoroughfare included within the scheme has been completed.

5. The words "authorized to acquire" in section 68 when read with section 69 are somewhat ambiguous. The two sections have been combined in one section, to show that the Board may acquire by agreement any land which they may compulsorily acquire.

6. It frequently happens that one of the assessors of the Tribunal is temporarily absent on account of illness or other unavoidable causes; it may, again, sometimes be undesirable that an assessor who is interested in any property in respect of which an order has to be made, should sit on the Tribunal when it is hearing the case. It is suggested that a small panel of qualified persons should be appointed—half of them to be nominated by the Corporation—from whom the Local Government might, without any loss of time, appoint a person to act in place of any assessor, who for one of the reasons already stated may be unable to sit on the bench. It is provided that only a member of the panel who has been nominated by the Corporation, should be appointed in place of the assessor appointed by that body.

7. At present the office rent, contingent expenses, etc., of the President of the Tribunal are paid by the Board and are audited as part of the expenditure of the Board. It is suggested that this procedure has the appearance of depriving the President of his proper independence, and it is therefore, proposed that the President of the Tribunal should each year submit to the Local Government an estimate of his expenditure, which the Local Government may sanction with such modifications as they think necessary, after considering any representation which the Board may make. The Board would then be required to make payments from time to time to the President of the Tribunal, for disbursement in accordance with the sanctioned estimates.

8. Some changes are made in section 78. At present the fees or commutation payments are payable at dates which vary according to the accident of the order in which the Collector takes up the cases; the result is that those owners whose cases are taken up first, are required to make their payments at an earlier date than the more fortunate persons, whose cases are decided later. Under the present Bill, the fee will be payable or the agreement will have to be executed, by a date to be fixed for each scheme by the Local Government, such date to be not less than 4 years from the publication of the notification under section 6 of the Land Acquisition Act. Owners will thus be in a better position to judge whether it is worth their while to pay the exemption fee; it will also be easy on or before the date fixed as above to ascertain the exact area of the land acquired and the land abandoned, which at present it is often impossible to do, as exemption fees are fixed before the line of road has been laid down on the ground. The new section 78 also leaves it open to the Board to arrange with the owner for the payment of the exemption fee by equated annual payments or otherwise; such elasticity will certainly be popular with land-owners.

9. The meaning of section 81 is admittedly uncertain. The Committee recommend that the Act should be amended so as to provide that whenever the Board decide to sell or lease any land they shall, unless they consider that to do so would be detrimental to the carrying out of the purposes of the Act, offer a prior right to take on lease or purchase such land to any person, who formerly had any interest in such land and who, in the opinion of the Board, has a preponderating claim to such land, or if it appears to the Board that no person has such preponderating claim, shall put to auction the right to take on lease or purchase such land among all persons who, previous to its acquisition, had interests in any portion of such land greater than a lease for years having seven years to run.

10. It is proposed to excise from the Act as unnecessary and responsible for confusion sections 120, 121, 124, 127 and 128, which provide for the maintenance of separate Capital and Revenue accounts. The Board has been given a certain sum of money to be spent on works of improvement and, so far as the basis of its finance is concerned, it is immaterial whether its income accrues year by year or is presented to the Trust in a single lump sum. These sections have accordingly been omitted, and the necessary consequential amendments made in sections 122 and 123.

SURENDRA NATH BANERJEA,

Member-in-charge.

CALCUTTA;

The 24th January, 1923.

NOTES ON CLAUSES.

Clause 2.—The object of the alteration in the long title and in the preamble to the Act, contained in sub-clause (*2*) of this clause is to make it clear that the Board is to have power to operate in the suburbs and environs of Calcutta.

The proposed addition to the preamble in sub-clause (*2*) of this clause is considered necessary, since the recitals in the preamble in regard to the previous sanction of the Governor-General relate to sanctions granted under enactments which have been subsequently repealed by the Government of India Act.

Clause 3.—The repeal of clause (*f*) of section 2 mentioned in sub-clause (*a*) of clause 3 is owing to the abandonment of the distinction between a general improvement scheme and a street scheme. Sub-clause (*c*) of this clause provides for the repeal of sections 39, 40, 42, 51, 52, 66, 68, 120, 121, 121, 127 and 128 and certain other portions of the Act. It is proposed to repeal sections 39, 40 and 51 owing to the abandonment of the distinction between general improvement schemes and street schemes. The necessary portions of section 39 are reproduced in the new section 36 in clause 8. Section 40 merely states the obvious principles which should guide the Trust, and it is considered unnecessary to give statutory authority to them, apart from the possibilities of raising legal difficulties. The matters dealt with in section 42 are provided for in the new section 41 in clause 10. Such of the provisions of the repealed section 52 as are required are reproduced in clause (*d*) of the proposed new section 41. Section 66 is unnecessary owing to the omission of the references to the General Committee in the modified section 65 in clause 17. Section 68 has been incorporated with section 69 in clause 18 (*2*) of the Bill, for the reason given in paragraph 5 of the Statement of Objects and Reasons. The deletion of sections 120, 121, 124, 127 and 128 is explained in paragraph 10 of the Statement of Objects and Reasons. The repeal mentioned in sub-clause (*d*) of clause 3 is consequential on the repeal of section 66, and the repeal of portions of section 171A dealt with in sub-clause (*e*) of clause 3 is consequential on the amendment in section 63 (*8*) included in clause 16.

Clause 4.—If the legislature decide to amalgamate the Maniktala Municipality with the Calcutta Municipality, as recommended by the Select Committee on the Calcutta Municipal Bill, 1921, the proposed sub-section (*3*) of section 1 will require modification in this respect.

Clause 5.—The proposed sub-section (*3*) in section 9 follows section 7 (*3*) of the Rangoon Development Trust Act, 1920 (Bur. Act V of 1920). Its object is to prevent the loss of the services of a really useful man as Trustee merely by reason of his disqualification under section 9 (*1*) (*e*).

Clause 6.—Valuable time is often wasted in complying with the provisions of section 27, and it is considered advisable to make the section more elastic, as indicated by the proposed sub-section (*5*), so as to allow the Chairman, on the authority of the Board, to exercise a discretion in the matter of calling for tenders under certain circumstances.

Clause 7.—The object of the amendment in clause (*a*) of section 32 is to make the intention more clear.

Clause 8.—As mentioned in paragraph 3 of the Statement of Objects and Reasons the distinction between a "general improvement scheme" and a "street scheme" has been abandoned in section 36 and other sections in Chapter III. The distinction between the obligatory and optional features of an improvement scheme, has also been given up. The section contains the features of a general improvement scheme and a street scheme, as set out in the existing Act.

Clause 9.—The amendment in sub-sections (*1*), (*2*), and (*3*) of section 38 is merely consequential.

Clause 10.—The wording of clause (*a*) of section 41 has been altered with a view to avoid any difficulties as to the acquisition of surplus lands. In clause (*d*) the words "other than sale or hire" have been omitted, as they unnecessarily limit the operations of the Trust. The clause will now cover re-housing, and it has been amplified in this respect. The expression "poorer classes" has been used instead of "poorer and working classes" as in section 52, which is to be repealed, so as to enable the Trust to provide for the poorer *bhadralok*. Clauses (*g*), (*h*), (*i*), and (*j*) amplify the latter portion of the existing clause (*f*). Clause (*k*) corresponds to clause (*b*) in the existing section 42, which it is proposed to repeal. Clause (*l*) amplifies clause (*b*) of section 42. As regards the proposed new clause (*m*) in section 36 it is considered desirable that power be taken to reserve sites for charitable or public institutions, and it is thought that any abuse of this power, such as the allocation of a site *gratis* to a quasi-public institution, can be avoided, since the Trust will have power to refuse pre-emption under section 81 (*2*) (*b*) in cases where sites are required for public purposes. The new clause (*n*) in section 36, in regard to any other matters, is necessary.

Clause 11.—This clause contains a necessary consequential amendment in clause (*a*) of sub-section (*2*) of section 45.

Clause 12.—The new proviso to sub-section (*1*) of section 47, requires the Board to give sixty days' notice to the parties affected, in cases where modifications in a scheme involve the acquisition of properties which were not to be acquired under the original scheme. As regards the proposed amendment in clause (*a*) of sub-section (*2*) of section 47, it is considered desirable that only preliminary plans should go to Government, and that engineering details should be relegated to the detailed plans prepared after Government sanction is obtained, and be settled between the two bodies directly concerned. The amendment in sub-section (*3*) of section 47 is self-explanatory.

Clause 13.—The new section 49A provides for the preparation by the Board, of detailed plans and estimates to be submitted to the Corporation, but not to the Local Government. The provisions of the existing section 50 will prevent any extensive changes in a scheme sanctioned by Government.

Clause 14.—The alterations in the proviso to section 53 are intended to give more elasticity as to the width of streets required. It is not possible to provide 40 feet roads, nor are they necessary, *e.g.*, in areas laid out with small three *cottah* sites of which one-third remains an open space. For areas so laid out a 20 feet road is probably quite adequate, provided that sufficient 40 feet thoroughfares are provided. The existing proviso (*ii*) has been of no real practical utility, since *mehtars'* passages are not needed where there is a sewerage system. In any case the proposed proviso would meet any rare case which might occur.

Clause 15.—Legal difficulties have arisen as to the interpretation of the words "is required for executing any improvement scheme" in sub-section (*1*) of section 54. The words "for the purposes of such scheme" have therefore been used instead, which will cover acquisition for recoupment. It is considered that all land within the scheme area should be made to contribute to its cost, and that the Corporation should not receive preferential treatment in this respect over private owners. As regards the amended sub-section (*2*) of section 54 it seems desirable to provide for Government deciding any dispute, as to what is required for the purposes of a scheme. It is proposed to omit the word "actual" before the word "loss" in sub-section (*1*) of section 54 because it is considered that except in the case of municipal streets and squares required for executing any improvement scheme, the Corporation should receive the actual market price of the property it surrenders, but the word "actual" has a tendency to limit or restrict the word "loss", and is unnecessary.

Clause 16.—It has been provided that the provisions of sub-section (*8*) of section 63, are not to apply to a hut.

Clauses 17, 18, 19, 20, 21 and 24.—The alterations proposed in sections 65, 69, 72, 75, 78 and 81 are indicated in paragraphs 4, 5, 6, 7, 8 and 9 respectively, of the Statement of Objects and Reasons.

Clauses 22 and 23.—The alterations in sections 79 and 80 are consequential on the changes made in section 78.

Clause 25.—The existing section 82 is ambiguous, and the alterations in sub-section (*1*) of this section are intended to remove this ambiguity by stating the articles in Schedule I of the Indian Stamp Act, 1899, which are covered by the sub-section.

Clause 26.—It is thought desirable to make an exception as regards the terminal tax in favour of persons in military employ when travelling on duty. A similar exemption is allowed by the Municipal Board of Benares in the case of military passengers proceeding to Benares on military duty.

Clause 27.—The amendment in sub-section (*3*) of section 88 merely brings up to date the citation of the section of the Calcutta Municipal Act, 1899, referred to. Sub-section (*4*) of section 88 has been altered with a view to make the intention more clear.

Clause 28.—Clause (*a*) of section 89 has been altered owing to the removal of the distinction between the capital and revenue accounts, and there is no reason why the Board should not use the loans it raises for any of the purposes for which it was created.

Clause 29.—The first amendment in section 98 is consequential. The object of the second and third amendments is to permit of loans being issued current till a certain year, and of repayments by the Board commencing at some earlier period by the issue of debentures under the new clause (*c*), the drawings to be so calculated that the payments on account of interest and re-payment of capital may be the same in each half-year.

Clause 30.—The amendment in sections 105 (*1*) and 106 brings up to date the citation of the section of the Calcutta Municipal Act, 1899, referred to.

Clause 31.—It is considered desirable to make it clear in section 115 that the moneys payable to the Board are to be held by them in trust for the purposes of the Act.

Clause 32.—The alteration in section 117 (*2*) is to meet possible cases where it is not convenient for the payments to be made by cheque.

Clauses 33 and 34.—The reasons for the alterations in sections 122 and 123 are indicated in paragraph 10 of the Statement of Objects and Reasons.

Clause 35.—The new section 125 merely reproduces with slight modifications the provisions of sub-section (*2*) of section 125. The omission of the provisions of sub-section (*1*) is due to the abandonment of the distinction between the revenue and capital accounts.

Clause 36.—The amendment contained in this clause is merely verbal and consequential.

Clause 37.—Section 129 has been amplified by the addition of a provision requiring the Board on the completion of a scheme to submit an account showing its net and gross cost.

Clause 38.—The alterations in section 137 (*4*) are consequential.

Clause 39.—The proposed clause (*h*) in sub-section (*2*) of section 138 which is based on clause (*18*) of section 559 of the Calcutta Municipal Act 1899, will enable the Board to make rules to prevent encroachments. At present nuisances are caused on the land belonging to the Board, *e.g.*, by *gariwans* tethering their cattle or parking their carts on such land, and the only legal remedy of the Trust is by a civil suit. It is impossible for the Trust to fence in all such lands effectively.

Clause 40.—The amendment in section 171 is consequential on the amendment in section 63 (*8*) contained in clause 16.

Clause 41.—The object of the amendment in section 5 of the Schedule to the Act is to make it clear in section 17A of the Land Acquisition Act, 1894, with reference to the payment of rates, that the transfers from the owner to Government and from the Government to the Board should take place simultaneously.

Clause 42.—The proposed proviso in 48A of the Land Acquisition Act, as modified for the purposes of the Calcutta Improvement Act, is considered necessary, in view of the alterations made in section 78, referred to in paragraph 8 of the Statement of Objects and Reasons.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 10th February, 1923 :—

shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

Non-judicial stamps, although transferred to the provinces as a source of revenue, are subject to legislation by the Indian Legislature under Item 20 in Part II of Schedule I of the Devolution Rules.

2. When the Government of Bengal last year proposed to raise the rates of stamp duty on those instruments, it was decided to reserve the following for all-India legislation since uniformity of duty in these particular cases was essential :—

No. in Schedule I to the Indian Act.	Description.
1	Acknowledgment.
13	Bill of Exchange.
19	Share Certificate.
21	Cheque.
28	Delivery Order in respect of goods.
36	Letter of Allotment of shares.
37	Letter of Credit.
47	Policy of Insurance.
49	Promissory Note.
52	Proxy.
53	Receipt.
60	Shipping Order.

In February, 1922, Local Governments were asked their views whether any, and if so, which, of the instruments referred to above could bear an enhancement of the existing rates of duty and to what extent. After considering their replies, it has been decided that the duty on certain of these instruments can be raised.

3. The Government of India have also decided to take this opportunity of amending Article 47 of Schedule I of the Stamp Act so as to bring under clause B of the Article certain classes of insurance which have hitherto, for the purposes of stamp duty, been taken under clause D. This amendment has been supported by all Local Governments.

4. The object of the present Bill is to give effect to these proposals.

RECOMMENDATIONS OF THE RETRENCHMENT COMMITTEE IN REGARD TO THE ABOLITION OF PERMANENT POSTS.

GOVERNMENT OF BENGAL.

APPOINTMENT DEPARTMENT.

CALCUTTA, THE 16TH MARCH 1923.

RESOLUTION—No. 3108A.

The Government of Bengal have considered the observations of the Retrenchment Committee contained in paragraph 460 of their report on the position of permanent servants of Government whose posts it may be decided to abolish.

The Committee emphasise the inherent right of Government to discharge superfluous permanent staff and point out that there is an article, 436, in the Civil Service Regulations which prescribes the action to be taken when this right is exercised and confers certain privileges on the discharged staff. It

is necessary in the public interests to maintain this right, but it is desirable in view of the anxiety naturally caused to a considerable number of Government servants by the possible results of the acceptance of the Committee's proposals to announce the course of action that Government propose generally to adopt.

Rule 56 (*a*) of the Fundamental Rules prohibits generally extensions of service beyond the age of 55 except on clear grounds of public interests and this rule will be strictly followed. Rule 56 (*b*) allows ministerial officers ordinarily to continue in service up to the age of 60. In the extraordinary conditions now prevailing no further extensions beyond the age of 55 will be allowed except with the express orders of Government. Government further reserve the right to call upon officers who are near the end of their services to retire on pension if that is considered desirable to enable the Committee's recommendations to be carried out. No question arises in the case of temporary staff, and in the case of permanent servants where the period of service has been so short as not materially to affect the chance of obtaining other employment, or where the possession of technical qualifications makes the obtaining of other employment comparatively easy, Government will exercise the right of reducing establishment on such terms as may appear equitable. In all other cases an endeavour will be made to provide the surplus officers with other suitable employment under Government, though no guarantee can be given that such employment will be the exact equivalent of the appointment abolished, and in considering the time at which effect will be given to the recommendations of the Retrenchment Committee regard will be had to the possibility of providing employment for such surplus officers. In order to make such provision a list will be maintained in the Appointment Department of officers whose services will be dispensed with and no permanent appointment under Government will be filled without consideration whether it is possible to utilise it for the absorption of an officer whose name is on this list of surplus officers. If it is found necessary to fill up a vacancy for which a suitable surplus officer is not immediately available it will be filled temporarily only, unless Government decide that owing to the nature of the appointment there is no chance of absorbing in it an officer already in Government employ whose services are immediately available or are likely to be so in the near future.

ORDER.—Ordered that the Resolution be published in the *Calcutta Gazette* and that copies of it be forwarded to all Commissioners of Divisions for information and for communication to officers subordinate to them.

Ordered also that copies of the Resolution be forwarded to the several departments of Government for information and for communication to heads of departments and other officers subordinate to them.

Ordered also that a copy of the Resolution be forwarded to the Accountant-General, Bengal, for information.

By order of the Governor in Council,

L. BIRLEY,
Chief Secretary to the Government of Bengal.

(*e*) where the Local Government has made rules requiring that boilers shall be in charge of persons holding certificates of competency, unless the boiler is in charge of a person holding the certificate required by such rules:

Provided that any boiler registered, or any boiler certified or licensed, under any Act hereby repealed shall be deemed to have been registered or certified, as the case may be, under this Act:

Provided, further, that, until the expiration of twelve months from the commencement of this Act, nothing in this section shall be deemed to prohibit the use of any boiler in any local area in which the registration of, or a certificate or licence for the use of, a boiler was not previously required by law.

Registration.

7. (*1*) The owner of any boiler which is not registered under the provisions of this Act may apply to the Inspector to have the boiler registered. Every such application shall be accompanied by the prescribed fee.

(*3*) On the said date the Inspector shall proceed to measure and examine the boiler and to determine in the prescribed manner the maximum pressure, if any, at which such boiler may be used, and shall report the result of the examination to the Chief Inspector in the prescribed form.

(*4*) The Chief Inspector, on receipt of the report, may—

(*a*) register the boiler and assign a register number thereto either forthwith or after satisfying himself that any structural alteration, addition or renewal which he may deem necessary has been made in or to the boiler or any steam-pipe attached thereto, or

(*b*) refuse to register the boiler:

Provided that where the Chief Inspector refuses to register a boiler, he shall forthwith communicate his refusal to the owner of the boiler together with the reasons therefor.

(*5*) The Chief Inspector shall, on registering the boiler, order the issue to the owner of a certificate in the prescribed form authorising the use of the boiler for a period not exceeding twelve months at a pressure not exceeding such maximum pressure as he thinks fit and as is in accordance with the regulations made under this Act.

(6) The Inspector shall forthwith convey to the owner of the boiler the orders of the Chief Inspector and shall in accordance therewith issue to the owner any certificate of which the issue has been ordered, and, where the boiler has been registered, the owner shall within the prescribed period cause the register number to be permanently marked thereon in the prescribed manner.

Renewal of certificate.

8. (1) A certificate authorising the use of a boiler shall cease to be in force—

(a) on expiry of the period for which it was granted ; or

(b) when any accident occurs to the boiler ; or

(c) when the boiler is moved, the boiler not being a vertical boiler the heating surface of which is less than two hundred square feet, or a portable or vehicular boiler ; or

(d) when any structural alteration, addition or renewal is made in or to the boiler ; or

(e) if the Chief Inspector in any particular case so directs, when any structural alteration, addition or renewal is made in or to any steam-pipe attached to the boiler ; or

Provided that, where the certificate has ceased to be in force owing to the making of any structural alteration, addition or renewal, the Chief Inspector may dispense with the payment of any fee.

(5) On the said date the Inspector shall examine the boiler in the prescribed manner, and if he is satisfied that the boiler and the steam-pipe or steam-pipes attached thereto are in good condition shall issue a renewed certificate authorising the use of the boiler for such period not exceeding twelve months and at a pressure not exceeding such maximum pressure as he thinks fit and as is in accordance with the regulations made under this Act :

Provided that if the Inspector—

(a) proposes to issue any certificate—

(i) having validity for a less period than the period entered in the application, or

(ii) increasing or reducing the maximum pressure at which the boiler may be used, or

(b) proposes to order any structural alteration, addition or renewal to be made in or to the boiler or any steam-pipe attached thereto, or

(c) is of opinion that the boiler is not fit for use,

the Inspector shall, within forty-eight hours of making the examination, inform the owner of the boiler in writing of his opinion and the reasons therefor, and shall forthwith report the case for orders to the Chief Inspector.

(6) The Chief Inspector, on receipt of a report under sub-section (5), may, subject to the provisions of this Act and of the regulations made hereunder, order the renewal of the certificate in such terms and on such conditions, if any, as he thinks fit ; or may refuse to renew it :

Provided that where the Chief Inspector refuses to renew a certificate, he shall forthwith communicate his refusal to the owner of the boiler, together with the reasons therefor.

(7) Nothing in this section shall be deemed to prevent an owner of a boiler from applying for a renewed certificate therefor at any time during the currency of a certificate.

Provisional orders.

9. Where the Inspector reports the case of any boiler to the Chief Inspector under sub-section (*3*) of section 7 or sub-section (*5*) of section 8, he may, if the boiler is not a boiler the use of which has been prohibited under clause (*f*) of sub-section (*1*) of section 8, grant to the owner thereof a provisional order in writing permitting the boiler to be used at a pressure not exceeding such maximum pressure as he thinks fit and as is in accordance with the regulations made under this Act, pending the receipt of the orders of the Chief Inspector. Such provisional order shall cease to be in force—

(*a*) on the expiry of six months from the date on which it is granted, or

(*b*) if the boiler in respect of which it has been granted has sustained injury or has ceased to be in good condition ; or

(*c*) where the Local Government has made rules requiring that boilers shall be in charge of persons holding certificates of competency, if the boiler is in charge of a person not holding the certificate required by such rules ; or

(*d*) where no such rules have been made, if the boiler is in charge of a person who is not, having regard to the condition of the boiler, in the opinion of the Chief Inspector competent to have charge thereof :

Provided that where the Chief Inspector withdraws or revokes a certificate or provisional order on the ground specified in clause (*d*), he shall communicate to the owner of the boiler his reasons in writing for the withdrawal or revocation, and the order shall not take effect until the expiry of thirty days from the receipt of such communication.

CHAPTER II.

WORKMEN'S COMPENSATION.

Employer's liability for compensation.

3. (1) If personal injury is caused to a workman by accident arising out of and in the course of his employment, his employer shall be liable to pay compensation in accordance with the provisions of this Chapter;

Provided that the employer shall not be so liable—

(a) in respect of any injury which does not result in the total or partial disablement of the workman for a period exceeding ten days;

(b) in respect of any injury to a workman resulting from an accident which is directly attributable to—

(i) the workman having been at the time thereof under the influence of drink or drugs, or

(ii) the wilful disobedience of the workman to an order expressly given, or to a rule expressly framed, for the purpose of securing the safety of workmen, or

(iii) the wilful removal or disregard by the workman of any safety guard or other device which he knew to have been provided for the purpose of securing the safety of workmen; or

(c) except in the case of death or permanent total disablement, in respect of any workman employed in the construction, repair or demolition of a building or bridge.

(2) If a workman employed in any employment involving the handling of wool, hair, bristles, hides or skins contracts the disease of anthrax, or if a workman whilst in the service of an employer in whose service he has been employed for a continuous period of not less than six months in any employment specified in Schedule III, contracts any disease specified therein as an occupational disease peculiar to that employment, the contracting of the disease shall be deemed to be an injury by accident within the meaning of this section and, unless the employer proves the contrary, the accident shall be deemed to have arisen out of and in the course of the employment.

Explanation.—For the purposes of this sub-section a period of service shall be deemed to be continuous which has not included a period of service under any other employer.

(3) The Governor General in Council, after giving, by notification in the Gazette of India, not less than three months' notice of his intention so to do, may, by a like notification, add any description of employment to the employments specified in Schedule III, and shall specify in the case of the employments so added the diseases which shall be deemed for the purposes of this section to be occupational diseases peculiar to those employments respectively, and the provisions of sub-section (2) shall thereupon apply as if such diseases had been declared by this Act to be occupational diseases peculiar to those employments.

(4) Save as provided by sub-sections (2) and (3), no compensation shall be payable to a workman in respect of any disease unless the disease is solely and directly attributable to a specific injury by accident arising out of and in the course of his employment.

(5) Nothing herein contained shall be deemed to confer any right to compensation on a workman in respect of any injury if he has instituted in a Civil Court a suit for damages in respect of the injury against the employer or any other person; and no suit for damages shall be maintainable by a workman in any Court of law in respect of any injury—

(a) if he has instituted a claim to compensation in respect of the injury before a Commissioner; or

(b) if an agreement has been come to between the workman and his employer providing for the payment of compensation in respect of the injury in accordance with the provisions of this Act.

Amount of compensation

4. (1) Subject to the provisions of this Act, the amount of compensation shall be as follows, namely:—

A. Where death results from the injury—

(i) in the case of an adult, a sum equal to thirty months' wages or two thousand five hundred rupees, whichever is less, and

(ii) in the case of a minor, two hundred rupees;

B. Where permanent total disablement results from the injury—

(i) in the case of an adult, a sum equal to forty-two months' wages or three thousand five hundred rupees, whichever is less; and

(ii) in the case of a minor, a sum equal to eighty-four months' wages or three thousand five hundred rupees, whichever is less;

C. Where permanent partial disablement results from the injury—

(i) in the case of an injury specified in Schedule I such percentage of the compensation which would have been payable in the case of permanent total disablement as is specified therein as being the percentage of the loss of earning capacity caused by that injury, and

(ii) in the case of an injury not specified in Schedule I, such percentage of the compensation payable in the case of permanent total disablement as is proportionate to the loss of earning capacity permanently caused by the injury;

Explanation.—Where more injuries than one are caused by the same accident, the amount of compensation payable under this head shall be aggregated but not so in any case as to exceed the amount which would have been payable if permanent total disablement had resulted from the injuries.

D. Where temporary disablement, whether total or partial, results from the injury, a half-monthly payment payable on the sixteenth day after the expiry of a waiting period of ten days from the date of the disablement, and thereafter half-monthly during the disablement or during a period of five years, whichever period is shorter,—

(i) in the case of an adult, of fifteen rupees or a sum equal to one-fourth of his monthly wages, whichever is less, and

(ii) in the case of a minor, of a sum equal to one-third or, after he has attained the age of fifteen years, to one-half of his monthly wages, but not exceeding in any case fifteen rupees;

Provided that there shall be deducted from any lump sum or half-monthly payments to which the workman is entitled the amount of any payment or allowance which the workman has received from the employer by way of compensation during the period of disablement prior to the receipt of such lump sum or of the first half-monthly payment, as the case may be, and no half-monthly payment shall in any case exceed the amount, if any, by which half the amount of the monthly wages of the workman before the accident exceeds half the amount of such wages which he is earning after the accident.

(*2*) On the ceasing of the disablement before the date on which any half-monthly payment falls due, there shall be payable in respect of that half-month a sum proportionate to the duration of the disablement in that half-month.

Method of calculating wages.

5. For the purposes of section 4 the monthly wages of a workman shall be calculated as follows, namely :—

(*a*) Where the workman has, during a continuous period of not less than twelve months immediately preceding the accident, been in service of the employer who is liable to pay compensation, the monthly wages of the workman shall be one-twelfth of the total wages which have fallen due for payment to him by the employer in the last twelve months of that period ;

(*b*) in other cases, the monthly wages shall be thirty times the total wages earned in respect of the last continuous period of service immediately preceding the accident from the employer who is liable to pay compensation, divided by the number of days comprising such period :

Provided that the sum arrived at by a calculation under clause (*a*) or clause (*b*) shall be increased or decreased, as the case may be, to the amount specified in the second column of Schedule IV against the head specified in the first column thereof within the limits of which such sum is included.

Explanation.—A period of service shall, for the purposes of this section, be deemed to be continuous which has not been interrupted by a period of absence from work exceeding fourteen days.

Review.

6. (*1*) Any half-monthly payment payable under this Act, either under an agreement between the parties or under the order of a Commissioner, may be reviewed by the Commissioner on the application either of the employer or of the workman accompanied by the certificate of a qualified medical practitioner that there has been a change in the condition of the workman or, subject to rules made under this Act, on application made without such certificate.

(*2*) Any half-monthly payment may, on review under this section, subject to the provisions of this Act, be continued, increased, decreased or ended, or, if the accident is found to have resulted in permanent disablement, be converted to the lump sum to which the workman is entitled less any amount which he has already received by way of half-monthly payments.

Commutation of half-monthly payments.

7. Any right to receive half-monthly payments may, by agreement between the parties or, if the parties cannot agree and the payments have been continued for not less than six months, on the application of either party to the Commissioner, be redeemed by the payment of a lump sum of such amount as may be agreed to by the parties or determined by the Commissioner, as the case may be.

Distribution of compensation.

8. (*1*) Compensation payable in respect of a workman whose injury has resulted in death shall be deposited with the Commissioner, and any sum so deposited shall be apportioned among the dependants of the deceased workman or any of them in such proportion as the Commissioner thinks fit, or may, in the discretion of the Commissioner, be allotted to any one such dependant, and the sum so allotted to any

dependant shall be paid to him or, if he is a person under any legal disability, be invested, applied or otherwise dealt with for his benefit during such disability in such manner as the Commissioner thinks fit.

(*2*) Any other compensation payable under this Act may be deposited with the Commissioner and, when so deposited, shall be paid by the Commissioner to the person entitled thereto.

(*3*) The receipt of the Commissioner shall be a sufficient discharge in respect of any amount deposited with him under sub-section (*1*) or sub-section (*2*).

(*4*) On the deposit of any money under sub-section (*1*), the Commissioner may deduct therefrom the actual cost of the workman's funeral expenses, to an amount not exceeding fifty rupees, and pay the same to the person by whom such expenses were incurred, and shall, if he thinks necessary, cause notice to be published or to be served on each dependant in such manner as he thinks fit, calling upon the dependants to appear before him on such date as he may fix for determining the distribution of the compensation. If the Commissioner is satisfied, after any inquiry which he may deem necessary, that no dependant exists, he shall repay the balance of the money to the employer by whom it was paid. The Commissioner shall, on application by the employer, furnish a statement showing in detail all disbursements made.

(*5*) Where a half-monthly payment is payable under this Act to a person under any legal disability, the Commissioner may, of his own motion or on application made to him in this behalf, order that the half-monthly payment be paid during the disability to any dependant of the workman or to any other person whom he thinks best fitted to provide for the welfare of the workman.

(*6*) Where, on application made to him in this behalf or otherwise, the Commissioner is satisfied that, on account of neglect of children on the part of a parent or on account of the variation of the circumstances of any dependant or for any other sufficient cause, an order of the Commissioner as to the distribution of any sum paid as compensation or as to the manner in which any sum payable to any such dependant is to be invested, applied or otherwise dealt with, ought to be varied, the Commissioner may make such orders for the variation of the former order as he thinks just in the circumstances of the case :

Provided that no such order prejudicial to any person shall be made unless such person has been given an opportunity of showing cause why the order should not be made, or shall be made in any case in which it would involve the repayment by a dependant of any sum already paid to him.

Compensation not to be assigned, attached or charged.

9. Save as provided by this Act, no lump sum or half-monthly payment payable under this Act shall in any way be capable of being assigned or charged or be liable to attachment or pass to any person other than the workman by operation of law, nor shall any claim be set off against the same.

Notice and claim.

10. (*1*) No proceedings for the recovery of compensation shall be maintainable before a Commissioner unless notice of the accident has been given, in the manner hereinafter provided, as soon as practicable after the happening thereof and before the workman has voluntarily left the employment in which he was injured, and unless the claim for compensation with respect to such accident has been instituted within six months of the occurrence of the accident or, in case of death, within six months from the date of death :

Provided that, where the accident is the contracting of a disease in respect of which the provisions of sub-section (*2*) of section 3 are applicable, the accident shall be deemed to have occurred on the first of the days during which the workman was continuously absent from work in consequence of the disablement caused by the disease :

Provided, further that the Commissioner may admit and decide any claim to compensation in any case notwithstanding that the notice has not been given, or the claim has not been instituted, in due time as provided in this sub-section, if he is satisfied that the failure so to give the notice or institute the claim, as the case may be, was due to sufficient cause.

(2) Every such notice shall give the name and address of the person injured and shall state in ordinary language the cause of the injury and the date on which the accident happened, and shall be served on the employer or upon any one or several employers, or upon any person directly responsible to the employer for the management of any branch of the trade or business in which the injured workman was employed.

(3) The notice may be served by delivering the same at, or sending it by registered post addressed to, the residence or any office or place of business of the person on whom it is to be served.

Medical examination.

11. (1) Where a workman has given notice of an accident, he shall, if the employer, before the expiry of three days from the time at which service of the notice has been effected, offers to have him examined free of charge by a qualified medical practitioner, submit himself for such examination, and any workman who is in receipt of a half-monthly payment under this Act shall, if so required, submit himself for such examination from time to time:

Provided that a workman shall not be required to submit himself for examination by a medical practitioner otherwise than in accordance with rules made under this Act, or at more frequent intervals than may be prescribed.

(2) If a workman, on being required to do so by the employer under sub-section (1) or by the Commissioner at any time, refuses to submit himself for examination by a qualified medical practitioner or in any way obstructs the same, his right to compensation shall be suspended during the continuance of such refusal, or obstruction unless, in the case of refusal, he was prevented by any sufficient cause from so submitting himself.

(3) If a workman, before the expiry of the period within which he is liable under sub-section (1) to be required to submit himself for medical examination, voluntarily leaves without having been so examined the vicinity of the place in which he was employed, his right to compensation shall be suspended until he returns and offers himself for such examination.

(4) Where a workman, whose right to compensation has been suspended under sub-section (2) or sub-section (3), dies without having submitted himself for medical examination as required by either of those sub-sections, the Commissioner may, if he thinks fit, direct the payment of compensation to the dependants of the deceased workman.

(5) Where under sub-section (2) or sub-section (3) a right to compensation is suspended, no compensation shall be payable in respect of the period of suspension, and if the period of suspension commences before the expiry of the waiting period referred to in clause (D) of sub-section (1) of section 4, the waiting period shall be increased by the period during which the suspension continues.

(6) Where an injured workman has refused to be attended by a qualified medical practitioner whose services have been offered to him by the employer free of charge or having accepted such offer has deliberately disregarded the instructions of such medical practitioner, then, if it is thereafter proved that the workman has not been regularly attended by a qualified medical practitioner and that such refusal, failure or disregard was unreasonable in the circumstances of the case and that injury has been aggravated thereby, the injury and resulting disablement shall be deemed to be of the same nature and duration as they might reasonably have been expected to be if the workman had been regularly attended by a qualified medical practitioner, and compensation, if any, shall be payable accordingly.

Contracting.

12. (1) Where any person (hereinafter in this section referred to as the principal) in the course of or for the purposes of his trade or business contracts with any other person (hereinafter in this section referred to as the contractor) for the execution by or under the contractor of the whole or any part of any work which is ordinarily part of the trade or business of the principal, the principal shall be liable to pay to any workman employed in the execution of the work any compensation which he would have been liable to pay if that

workman had been immediately employed by him ; and where compensation is claimed from the principal, this Act shall apply as if references to the principal were substituted for references to the employer except that the amount of compensation shall be calculated with reference to the wages of the workman under the employer by whom he is immediately employed.

(*2*) Where the principal is liable to pay compensation under this section, he shall be entitled to be indemnified by the contractor, and all questions as to the right to and the amount of any such indemnity shall, in default of agreement, be settled by the Commissioner.

(*3*) Nothing in this section shall be construed as preventing a workman from recovering compensation from the contractor instead of the principal.

(*4*) This section shall not apply in any case where the accident occurred elsewhere than on, in or about the premises on which the principal has undertaken or usually undertakes, as the case may be, to execute the work or which are otherwise under his control or management.

Remedies of employer against stranger.

13. Where a workman has recovered compensation in respect of any injury caused under circumstances creating a legal liability of some person other than the person by whom the compensation was paid to pay damages in respect thereof, the person by whom the compensation was paid and any person who has been called on to pay an indemnity under section 12 shall be entitled to be indemnified by the person so liable to pay damages as aforesaid.

Insolvency of employer.

14. (*1*) Where any employer has entered into a contract with any insurers in respect of any liability under this Act to any workman, then in the event of the employer becoming insolvent or making a composition or scheme of arrangement with his creditors or, if the employer is a company, in the event of the company having commenced to be wound up, the rights of the employer against the insurers as respects that liability shall, notwithstanding anything in any law for the time being in force relating to insolvency or the winding up of companies, be transferred to and vest in the workman and upon any such transfer the insurers shall have the same rights and remedies and be subject to the same liabilities as if they were the employer, so, however that the insurers shall not be under any greater liability to the workman than they would have been under to the employer.

(*2*) If the liability of the insurers to the workman is less than the liability of the employer to the workman, the workman may prove for the balance in the insolvency proceedings or liquidation.

(*3*) Where in any case such as is referred to in sub-section (*1*) the contract of the employer with the insurers is void or voidable by reason of non-compliance on the part of the employer with any terms or conditions of the contract (other than a stipulation for the payment of premia), the provisions of that sub-section shall apply as if the contract were not void or voidable, and the insurers shall be entitled to prove in the insolvency proceedings or liquidation for the amount paid to the workman ;

Provided that the provisions of this sub-section shall not apply in any case in which the workman fails to give notice to the insurers of the happening of the accident and of any resulting disablement as soon as practicable after he becomes aware of the institution of the insolvency or liquidation proceedings.

(*4*) There shall be deemed to be included among the debts which under section 49 of the Presidency-towns Insolvency Act, 1909, or under section 61 of the Provincial Insolvency Act, 1920, or under section 230 of the Indian Companies Act, 1913, are in the distribution of the property of an insolvent or in the distribution of the assets of a company being wound up to be paid in priority to all other debts, the amount due in respect of any compensation the liability wherefor accrued before the date of the order of adjudication of the insolvent or the date of the commencement of the winding up, as the case may be, and those Acts shall have effect accordingly.

III of 1909.

V of 1920
VII of 1913.

(5) Where the compensation is a half-monthly payment, the amount due in respect thereof shall, for the purposes of this section, be taken to be the amount of the lump sum for which the half-monthly payment could, if redeemable, be redeemed if application were made for that purpose under section 7, and a certificate of the Commissioner as to the amount of such sum shall be conclusive proof thereof.

(6) The provisions of sub-section (4) shall apply in the case of any amount for which an insurer is entitled to prove under sub-section (3), but otherwise those provisions shall not apply where the insolvent or the company being wound up has entered into such a contract with insurers as is referred to in sub-section (1).

(7) This section shall not apply where a company is wound up voluntarily merely for the purposes of reconstruction or of amalgamation with another company.

Special provisions relating to masters and seamen.

15. This Act shall apply in the case of workmen who are masters of registered ships or seamen subject to the following modifications, namely :—

(1) The notice of the accident and the claim for compensation may, except where the person injured is the master of the ship, be served on the master of the ship as if he were the employer, but where the accident happened and the disablement commenced on board the ship, it shall not be necessary for any seaman to give any notice of the accident.

(2) In the case of the death of a master or seaman, the claim for compensation shall be made within six months after the news of the death has been received by the claimant or, where the ship has been or is deemed to have been lost with all hands, within eighteen months of the date on which the ship was, or is deemed to have been, so lost.

(3) Where an injured master or seamen is discharged or left behind in any part of His Majesty's dominions or in a foreign country, any depositions taken by any Judge or Magistrate in that part or by any Consular Officer in the foreign country and transmitted by the person by whom they are taken to the Governor General in Council or any Local Government shall, in any proceedings for enforcing the claim, be admissible in evidence—

(a) if the deposition is authenticated by the signature of the Judge, Magistrate or Consular Officer before whom it is made ;

(b) if the defendant or the person accused as the case may be, had an opportunity by himself or his agent to cross-examine the witness ; and

(c) if the deposition was made in the course of a criminal proceeding, on proof that the deposition was made in the presence of the person accused ;

and it shall not be necessary in any case to prove the signature or official character of the person appearing to have signed any such deposition and a certificate by such person that the defendant or the person accused had an opportunity of cross-examining the witness and that the deposition if made in a criminal proceeding was made in the presence of the person accused shall, unless the contrary is proved, be sufficient evidence that he had that opportunity and that it was so made.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 24th February, 1923 :—

No. 10 OF 1923.

A Bill to amend the Indian Income-tax Act, 1922.

WHEREAS it is expedient to amend the Indian Income-tax Act, 1922 ; It is hereby enacted as follows :— XI of 1922.

Short title. **1.** This Act may be called the Indian Income-tax (Amendment) Act, 1923.

Amendment of section 7, Act XI of 1922. **2.** To sub-section (*1*) of section 7 of the Indian Income-tax Act, 1922 (hereinafter referred to as the said Act), the following explanation shall be added, namely :— XI of 1922

"*Explanation.*—The right of a person to occupy free of rent as a place of residence any premises provided by his employer is a perquisite for the purposes of this sub-section."

Amendment of section 68, Act XI of 1922. **3.** (*1*) In section 68 of the said Act, in the second proviso, after the words "under that Act" the words "or under the Super-tax Act, 1920" shall be inserted and for the words and figures "section 19 of the said Act" the words "that section" shall be substituted.

(*2*) The amendments made in the said Act by sub-section (*1*) shall have effect as if they had been made on the 1st day of April, 1922.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to correct the drafting of the Income-tax Act of 1922 in two sections, in which it has been found that the wording of the Act as passed did not give correct effect to the intensions of the Legislature.

2. It was intended when the Act was framed that the perquisite enjoyed by a person in the shape of a rent-free residence should be assessed to income-tax. It has, however, been found that as section 7 (*1*) of the Act at present stands, a rent-free residence still cannot be taxed. Clause 2 of this Bill gives effect to the intentions of the Legislature.

3. As proviso (2) to section 68 of the Act of 1922 at present strands, it has kept alive for 1922-23 only the adjustments of the assessments of income-tax made in 1921-22, but the intention when the Act of 1922 was framed was to continue the "adjustment system" mentioned in section 19 of the Income-tax Act, 1918 (VII of 1918), both as regards income-tax and super-tax. Clause 3 of the Bill gives effect to that intention.

STATEMENT OF OBJECTS AND REASONS.

1. The object of this Bill is to provide the additional revenue referred to in my speech introducing the Budget for 1923-24 and to continue certain provisions of the Indian Finance Act, 1922 (XII of 1922) which would otherwise cease to have effect from the 1st April 1923.

2. Clause 2 of the Bill provides for the raising of the salt duty from Re. 1-4 to Rs. 2-8 per maund.

3. Opportunity has been taken to make certain minor amendments in the Tariff Schedule necessitated by administrative reasons. These are embodied in clause 3 (*1*). The substantive changes made are :—

(1) The adoption of a new definition of "Machinery and its component parts" and consequential changes in the entries relating to railway and building materials, ships, etc.

(2) The raising of the duty on saccharine.

(3) The withdrawal of the concessional rate in respect of tea chests and of lead therefor.

Clause 3 (*2*) reduces the export duty on raw hides and skins from 15 to 5 per cent. *ad valorem* and dispenses with the system of rebates.

4. Clauses 4 and 6 provide for the continuance of the rates of postage, income-tax and super-tax prescribed by the Indian Finance Act (XII of 1922) while clause 5 provides for the credit to revenue, for a further period of one year, *i.e.*, till the 31st March 1924, of interest on securities forming part of the Paper Currency Reserve.

5. The changes mentioned in paragraphs 2 and 3 are intended to come into effect from the 1st March 1923; the rest from April 1st. The Bill provides that the provisions other than those relating to the tariff shall remain in force till the 31st March 1924.

Monthly Weather and Crop Report of Bengal for February 1923.

I. **Character of the season.**—The rainfall which set in by the second week of the month after a protracted drought was above the average, being markedly in excess in the Western Bengal districts. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Transplantation of summer rice was almost complete and harvesting of oilseeds and other spring crops made good progress. Rainfall facilitated the field operations for jute and autumn paddy.

III. **State of standing crops.**—Standing crops were doing fairly well.

IV. **Prospects and probable outturn.**—The spring crops were reported to be fairly favourable. The outturn of wheat, however, is expected to be fair.

V. **Damage to standing crops.**—Rainfall during the third week of the month was reported to have done damage to pulses and other spring crops in parts of West Bengal. Elsewhere the prospects of late sown crops improved especially in the flood affected tracts of Northern Bengal.

VI. **Condition of the agricultural stock.**—Condition of live-stock was reported to be fair on the whole; stray cases of cattle disease were, however, reported from 14 districts.

VII. **Failure of pasturage and fodder.**—Excepting in parts of the flood affected areas in Rajshahi no scarcity of fodder was reported from any part of the Presidency.

VIII. **Prices of food-grains.**—During the second fortnight of the month the price of common rice rose in five districts, fell in five and remained stationary in the rest. The prices varied from 8¼ seers per rupee in Dinajpur to 5 1/16 seers in the 24-Parganas.

IX. **Condition of agricultural people.**—The condition of agricultural population was generally reported to be fair excepting in parts of the flood affected tracts of Rajshahi where test works were opened during the second week of the month.
